

Find Yourself Face to Face: Activity Sheet A

Name \_\_\_\_\_

Copy details of eyes, noses, mouths, and hair from faces you find in different works of art. Use one column for each work of art. Some will be easy to copy, others harder, but give it a try! We did one for you.

Work of art	Gope board			
Eyes				
Nose				
Mouth				
Hair				

## Find Yourself Face to Face: Activity Sheet B

Name \_\_\_\_\_

It's hard to tell how big something really is from a reproduction. Use your math skills to figure out how big the works of art are compared to an average kid. The 2-inch figure below represents a 4-foot student (scale of the drawing:  $\frac{1}{2}$  inch = 1 foot). The dimensions of the art are on the information sheets. Go ahead and draw the art into the gallery!
